Following the terrorist attacks of September 11, 2001, the Central Intelligence Agency embarked on a highly classified program of secret detention and extraordinary rendition of terrorist suspects. The program was designed to place detainee interrogations beyond the reach of law. Suspected terrorists were seized and secretly flown across national borders to be interrogated by foreign governments that used torture, or by the CIA itself in clandestine 'black sites' using torture techniques. This report is the most comprehensive account yet assembled of the human rights abuses associated with secret detention and extraordinary rendition operations. It details for the first time the number of known victims, and lists the foreign governments that participated in these operations. It shows that responsibility for the abuses lies not only with the United States but with dozens of foreign governments that were complicit. More than 10 years after the 2001 attacks, this report makes it unequivocally clear that the time has come for the United States and its partners to definitively repudiate these illegal practices and secure accountability for the associated human rights abuses.

You will encounter some kind of health adversity in life. Doctors can only take you so far. You will have to do the rest yourself. This book is a near comprehensive resource guide to point you in a lot of different directions that might help you in some way. If all of a sudden you get into an accident or get a serious disease, you don't have time to sift through the hundreds of health books at #610 to #619 at the library or cruise the web looking for answers some of which are a massive rip-off. I'll give you a case in point. I was on a holistic cancer website where they give about 25 pages of solid knowledge for free then I went on another one with a ten page sales pitch ending with "Only \$97 and you'll get all these reports about 12 obscure holistic cancer therapies."

Covers the weapons, vehicles, equipment, and systems used by the United States military
