Based on nearly a decade of fieldwork in Chicago's Robert Taylor Homes, American Project is the first comprehensive story of daily life in an American public housing complex. Venkatesh draws on his relationships with tenants, gang members, police officers, and local organizations to offer an intimate portrait of an inner-city community that journalists and the public have only viewed from a distance.

What's the Rise & Conquer Project about? I'm so glad you asked!

High-rise public housing developments were signature features of the post-World War II city. A hopeful experiment in providing temporary, inexpensive housing for all Americans, the "projects" soon became synonymous with the black urban poor, with isolation and overcrowding, with drugs, gang violence, and neglect. As the wrecking ball brings down some of these concrete monoliths, Sudhir Venkatesh seeks to reexamine public housing from the inside out, and to salvage its troubled legacy.

High-rise public housing was a signature of the post-World War II city. A hopeful experiment in providing temporary, inexpensive homes for all Americans, the "projects" soon became synonymous with the black urban poor, isolation and overcrowding, drugs, gang violence, and neglect. Here, Venkatesh seeks to salvage public housing's troubled legacy.

In this revelatory book, Sudhir Venkatesh takes us into Maquis Park, a poor black neighborhood on Chicago's Southside, to explore the desperate and remarkable ways in which a community survives. The result is a dramatic narrative of individuals at work, and a rich portrait of a community. But while excavating the efforts of men and women to generate a basic livelihood for themselves and their families, Off the Books offers a devastating critique of the entrenched poverty that we so often ignore in America, and reveals how the underground economy is an inevitable response to the ghetto's appalling isolation from the rest of the country.

Think It Can't Happen Here? Think Again: Operation Vigilant Eagle HR 347 Million Vet March IRS Targeting Bundy Ranch Ferguson Patriot Act Partisanship is on the rise, the economy is in a downward spiral, and there is a steady erosion of civil liberties. These factors all contribute to a plotline that is as unthinkable as it is inevitable. A Second American Civil War. From the backroom deals in Washington D.C. to the front lines of the battlefield. Daugherty offers an unflinching view of how a modern war on American soil would play out. A nightmare scenario which will come true.

In the gripping first-person accounts of High Rise Stories, former residents of Chicago's iconic public housing projects describe life in the now-demolished high-rises. These stories of community, displacement, and poverty in the wake of gentrification give voice to those who have long been ignored, but whose hopes and struggles exist firmly at the heart of our national identity.

Joining the ranks of Evicted, The Warmth of Other Sons, and classic works of literary non-fiction by Alex Kotlowitz and J. Anthony Lukas, High-Risers braids personal narratives, city politics, and national history to tell the timely and epic story of Chicago's Cabrini-Green, America's most iconic public housing project. Built in the 1940s atop an infamous Italian slum, Cabrini-Green grew to twenty-three towers and a population of 20,000—all of it packed onto just seventy acres a few blocks from Chicago's ritzy Gold Coast. Cabrini-Green became synonymous with crime, squalor, and the failure of government. For the many who lived there, it was also a much-needed resource—it was home. By 2011, every high-rise had been razed, the island of black poverty engulfed by the white affluence around it, the families dispersed. In this novelistic and eye-opening narrative, Ben Austen tells the story of America's public housing experiment and the changing fortunes of American cities. It is an account told movingly though the lives of residents who struggled to make a home for their families as powerful forces converged to accelerate the housing complex's demise. Beautifully written, rich in detail, and full of moving portraits, High-Risers is a

sweeping exploration of race, class, popular culture, and politics in modern America that brilliantly considers what went wrong in our nation's effort to provide affordable housing to the poor—and what we can learn from those mistakes.

Visit spearheadbooks.com and christopherhopper.com today! DESCRIPTION: Read the story that turned children into warriors, and warriors into legends. The Dairne-Reih haven't been seen in Dionia for generations-their kind and their king, Morgui, banished long ago from haunting paradise. But when creation shows signs of deterioration, the kings of the seven realms converge in the sacred Gvindollion gathering to arrive at one inexplicable conclusion: Morgui has returned. In the hopes of entrusting Dionia's brave history and perilous future to a generation that has never known war, the kings decide to raise up their young sons as an elite group of warriors, known only as the Dibor. Gorn, legendary hero of the First Battle, is commissioned to teach the Dibor the art of war, leading them on a four-year adventure on the Isle of Kirstell. It is Luik, son of Lair, who soon emerges as the warband's spirited front man. But he is not the only one of his peers to grow in power; his dear friend Fane discovers hidden abilities among the Mosfar under the mentorship of Li-Saide of Ot, while Princess Anorra finds that her lifelong tutor knows as much about combat as he does about etiquette. There is little time for the Dibor to enjoy the satisfaction of graduation, however, as a sinister plot is discovered to dethrone Dionia's kings and flatten the capital city of Adriel. The Dibor are summoned to war, along with the rest of Dionia's fighting men. It is before the gates of Adriel Palace that Luik and his army face Morgui's prince, Valdenil, as well as the unending ranks of the Dairne-Reih.

How America's high standard of living came to be and why future growth is under threat In the century after the Civil War, an economic revolution improved the American standard of living in ways previously unimaginable. Electric lighting, indoor plumbing, motor vehicles, air travel, and television transformed households and workplaces. But has that era of unprecedented growth come to an end? Weaving together a vivid narrative, historical anecdotes, and economic analysis, *The Rise and Fall of American Growth* challenges the view that economic growth will continue unabated, and demonstrates that the life-altering scale of innovations between 1870 and 1970 cannot be repeated. Robert Gordon contends that the nation's productivity growth will be further held back by the headwinds of rising inequality, stagnating education, an aging population, and the rising debt of college students and the federal government, and that we must find new solutions. A critical voice in the most pressing debates of our time, *The Rise and Fall of American Growth* is at once a tribute to a century of radical change and a harbinger of tougher times to come.
