In an exhilarating tale of historic adventure, the Pulitzer Prize-winning author of *Confederates in the Attic* retraces the voyages of Captain James Cook, the Yorkshire farm boy who drew the map of the modern

world Captain James Cook's three epic journeys in the 18th century were the last great voyages of discovery. His ships sailed 150,000 miles, from the Arctic to the Antarctic, from Tasmania to Oregon, from Easter Island to Siberia. When Cook set off for the Pacific in 1768, a third of the globe remained blank. By the time he died in Hawaii in 1779, the map of the world was substantially complete. Tony Horwitz vividly recounts Cook's voyages and the exotic scenes the captain encountered: tropical orgies, taboo rituals, cannibal feasts, human sacrifice. He also relives Cook's adventures by following in the captain's wake to places such as Tahiti, Savage Island, and the Great Barrier Reef to discover Cook's embattled legacy in the present day. Signing on as a working crewman aboard a replica of Cook's vessel, Horwitz experiences the thrill and terror of sailing a tall ship. He also explores Cook the man: an impoverished farmboy who broke through

the barriers of his class and time to become the greatest navigator in British history. By turns harrowing and hilarious, insightful and entertaining, BLUE LATITUDES brings to life a man whose voyages helped create the 'global village' we know today.

Due to population aging, calcific aortic valve disease (CAVD) has become the most common heart valve disease in Western countries. No therapies exist to slow this disease progression, and surgical valve replacement is the only effective treatment. Calcific Aortic Valve Disease covers the contemporary understanding of basic valve biology and the mechanisms of CAVD, provides novel insights into the genetics, proteomics, and metabolomics of CAVD, depicts new strategies in heart valve tissue engineering and regenerative medicine, and explores current treatment approaches. As we are on the verge of

understanding the mechanisms of CAVD, we hope that this book will enable readers to comprehend our current knowledge and focus on the possibility of preventing disease progression in the future.

'The boat appeared when I didn't expect or, frankly, need her. My bucket list was empty. Life was full...But sailing towards me was a boat that would stir the waters, waking decades of loss, revealing history untold, and restoring a legacy that was lost in the wind. For her and for me, I had to wade into that water. I had to go, to search, to find.'

Having fallen hopelessly in love with a 1930s Danish spidsgatter, a beautifully constructed 25 ft wooden double-ender, Kaci embarks on an international search to unravel the mystery of the boat's past, and discovers the many lives Pax touched since she first hit the water in 1936. Kaci Cronkhite's seven year search for Pax's history is an elegant

little gem, taking the reader aboard not only for sublime, wind-filled sails but also to eavesdrop the conversations and relationships that are built as she learns more about Pax's past, whilst hugely enjoying her present. Finding Pax is a story of discovery and reconnection like no other. The writing is poetic, spare, and full of wisdom: 'In sailing, in weather, in life and death, answers are not endings and questions are not to be feared. The unknowns keep us moving forward.'

For nearly thirty years, Maine's premier boating magazine Maine Boats, Homes & Harbors has published a regular column called Boatyard Dogs about dogs and the nautical life. This delightful book gathers the best of the column into a single volume that makes a wonderful gift for anyone who loves dogs--and boats.
