DKfindout Coding by DK Publishing
Coding is the way we tell computers to do all the helpful things they do for us. From finding a contact on your phone so you can send a message, to directing a rocket into space, computers follow lists of instructions a coder, or programmer, has written.

Coding For Kids | Programming For Kids | DK Find Out
Python uses two different windows, the shell window and the code window. The code can be written in the code window, and when the program is run, the result will appear in the shell window. Here, the code window is purple and the shell window is blue. Print command. The code window can be used to write and save programs.
