Kawasaki Engine Gas Golf ...

Club Car makes some changes. The next radical change in the 1990s was under the hood. In 1992, the company switched to a 9 horse power 286cc Kawasaki engine, dropping the older 341 cc side valve engine. And in 1995 it came out with its first 48-volt electric engine option, an upgrade from the previous 36-volt option.
