Position Pieces for Cello is designed to give students a logical and fun way to learn their way around the fingerboard. Each hand position is introduced with exercises called "Target Practice," "Geography Quiz," and "Names and Numbers." Following these exercises are tuneful cello duets which have been specifically composed to require students to play in that hand position. In this way, students gain a thorough knowledge of how to find the hand positions and, once there, which notes are possible to play. Using these pieces (with names like "I Was a Teenage Monster," "The Irish Tenor," and "I've Got the Blues, Baby"), position study on the cello has never been so much fun!

As with the other books in his ...for Cello series, Rick Mooney has made the learning of a specific technique easier and more enjoyable than ever before. Book 2 continues where Book 1 left off and includes classical music, folk tunes, and original pieces by Rick Mooney such as "Around the Gypsy Campfire," "Harry the Hirsute Housefly," "Petite Partita" and much more. As in Book 1, all of the pieces have been arranged as duets, with a second cello part for the teacher (or other students in a group class) to play.

The author's stated purpose in writing The Art of Cello Playing is to present a progressive sequence of commentary and material as a basis for acquiring a sound technical foundation and basic playing competence to prepare the player for exploring the rich solo, orchestral, and chamber music literature of the instrument. To that end he has produced a comprehensive textbook and reference manual on beginning to advanced cello technique with emphasis on the vital beginning foundation. Louis Potter Jr., is particularly well qualified to make this contribution from his wide experience in teaching both classes and individuals at Michigan State University and at National Music Camp, Interlochen, Michigan.
