These two models were at the pinnacle of Lancia's achievements in the 50s and 60s. The Aurelia was the world's first production car to be powered by a 60-degree V6 engine and also featured a transaxle and fully independent suspension system. It had an attractive shape and the GT coupes made from 1953 represented a classic shape. Pininfarina styled the saloons and coupes of the Flaminia range with designs also available from Touring and Zagato. This is a book of contemporary road and comparison tests, specification and technical data, new model introductions, driver's impressions, travel, history. Models covered include:- Aurelia saloon, Aurelia GT, GT2500, GT America, Spyder, Flaminia, CoupT, Zagato, Pininfarina CoupT, GT, Convertible, 2.8.

In the not-too-distant future, in what was once the old City of New York, megacorporations have taken over everything. Now even the internet is owned, and the only way to transmit sensitive information is by a network of highly skilled couriers called "data runners" who run it over the sneakernet. It is a dangerous gig in a dirty world, but Jack Nill doesn't have much choice in the matter. A brilliant young math whiz and champion of parkour, Jack must become one of these data runners in order to get his father out of a major gambling debt. When a mysterious stranger loads Jack's chip with a cryptic cargo that everybody wants, he soon becomes the key figure in a conspiracy that could affect the entire North American Alliance. Now it's all up to Jack. With the help of his best friend, Dexter, and a girl who runs under the name Red Tail, Jack will have to use all his skills to outrun the retrievers and uncover the truth before they catch him and clip him for good.
