For more than fifty years, Walter Bernard and Milton Glaser have revolutionized the look of magazine journalism. In Mag Men, Bernard and Glaser recount their storied careers, offering insiders’ perspective on some of the most iconic design work of the twentieth century. The authors look back on and analyze some of their most important and compelling projects, from the creation of New York magazine to redesigns of such publications as Time, Fortune, Paris Match, and The Nation, explaining how their designs complemented a story and shaped the visual identity of a magazine. Richly illustrated with the covers and interiors that defined their careers, Mag Men is bursting with vivid examples of Bernard and Glaser’s work, designed to encapsulate their distinctive approach to visual storytelling and capture the major events and trends of the past half century. Highlighting the importance of collaboration in magazine journalism, Bernard and Glaser detail their relationships with a variety of writers, editors, and artists, including Nora Ephron, Tom Wolfe, Gail Sheehy, David Levine, Seymour Chwast, Katherine Graham, Clay Felker, and Katrina vanden Heuvel. The book features a foreword by Gloria Steinem, who reflects on her work in magazines and her collaborations with Bernard and Glaser. At a time when uncertainty continues to cloud the future of print journalism, Mag Men offers not only a personal history from two of its most innovative figures but also a reminder and celebration of the visual impact and sense of style that only magazines can offer.

How does a designer create graphic solutions to the behind-the-scenes editorial challenges at a magazine? Designing Magazines is the complete guide to understanding the inner workings of magazines and their day-to-day management—and a great guide to using that knowledge to create visually stunning, editorially effective magazines, in both new designs and rebranding. Thirty-five experienced editors, designers, and consultants, all at the top of their fields, present their insights on the goals and process of magazine design. Chapters focus on problems faced by designers, ethical considerations, the future of the field, and many more relevant but rarely discussed issues. A look at magazines that have risen above the crowd to achieve special social importance—and how design has been a part of that success—provides additional inspiration for magazine designers everywhere. A magnificent new novel from the Nobel laureate Kazuo Ishiguro—author of Never Let Me Go and the Booker Prize-winning The Remains of the Day, Klara and the Sun, the first novel by Kazuo Ishiguro since he was awarded the Nobel Prize in Literature, tells the story of Klara, an Artificial Friend with outstanding observational qualities, who, from her place in the store, watches carefully the behavior of those who come in to browse, and of those who pass on the street outside. She remains hopeful that a customer will soon choose her. Klara and the Sun is a thrilling book that offers a look at our changing world through the eyes of an unforgettable narrator, and one that explores the fundamental question: what does it mean to love? In its award citation in 2017, the Nobel committee described Ishiguro’s books as “novels of great emotional force” and said he has “uncovered the abyss beneath our illusory sense of connection with the world.”

Paying homage to the American periodicals of the 1950s, 1960s, and 1970s that documented outrageous exploits, this hefty, comprehensive guide is packed full of colorful cover art, sumptuous sample spreads, and enlightening essays.

In mid-twentieth-century America, mass tourism became emblematic of the expanding horizons associated with an affluent, industrial society. Nowhere was the image of leisurely travel more visible than in the parade of glossy articles and advertisements that beckoned readers from the pages of popular magazines. In Richard K. Popp’s The Holiday Makers, the magazine industry serves as a window into postwar media and consumer society, showing how the dynamics of market research and commercial print culture helped shape ideas about place, mobility, and leisure. Magazine publishers saw travel content as a way to connect audiences to a booming ad sector, while middlebrow editors believed sightseeing travel was a means of fostering a classless society at home and harmony abroad. Expanding transportation networks and free time lay at the heart of this idealized vision. Holiday magazine heralded nothing less than the dawn of a new era, calling it “the age of Mobile Man – Man gifted, for the first time in history, with leisure and the means to enjoy distance on a global scale.” For their part, advertisers understood that selling tourism meant turning “dreams into action,” as ad executive David Ogilvy put it. Doing so involved everything from countering ugly stereotypes to tapping into desires for “authentic” places and self-actualization. Though tourism was publicly touted in egalitarian terms, publishers and advertisers privately came to see it as an easy way to segment the elite free spenders from the penny-pinching masses. Just as importantly, marketers identified correlations between an interest in travel and other consumer behavior. Ultimately, Popp contends, the selling of tourism in postwar America played an early, integral role in the shift toward lifestyle marketing, an experiential service economy, and contributed to escalating levels of social inequality.

You can’t judge a book by its cover, or so the saying goes. We beg to differ. Each of us is exposed to several thousand messages a day. To be successful, covers not only have to stand out amongst all the clutter, but they also need to make an instant connection with viewers. Designing covers isn’t an easy task. It’s a minefield of requirements, constraints, and subjective opinions, oftentimes resulting in what we like to call the â€œdesign-by-committee pit of despair.â€? Make the logo bigger. The CEO’s daughter doesn’t like orange; change it. The sales team begins art directing. Welcome to the land of mediocrity. We’ve all been there, and it requires ninja-like skills to traverse and emerge in one piece. Despite the challenges, some covers clearly rise to the top. You can’t help but pick up the magazine, open the brochure, or buy the book. They draw you in through their cleverness, simplicity, or boldness. These are the covers contained herein. Of the more than 2,000 covers received, the authors had the dubious task of selecting about 350 to be featured in The Best of Cover Design. The chosen covers were selected based on their initial visual impact and effectiveness in conveying the message within. It is an inspiration feast for the eyes.
