And in China, the look of a car dashboard led to the design of the Roomba vacuum - a great American success story. How? Lindstrom connects the dots in this globetrotting narrative that will fascinate not only marketers and brand managers, but anyone interested in the infinite variations of human behavior. The Desire Hunter combines armchair travel with forensic psychology into an interlocking series of international clue-gathering detective stories. It presents a rare behind-the-scenes look at what it takes to create global brands; and along the way, reveals surprising and counter-intuitive truths about what connects us all as humans"--
