With increasing growth faults and postural defects among children, application of corrective physical education becomes more significant as the regular type of physical education programme and activities will not meet out safely the physical and psychological needs of weak and underdeveloped children as the normal boys and girls will do. The book “Complete Book on Correctives, Therapeutic Exercise, Sports Injuries, and Massage” is divided into 5 sections and 19 chapters containing various aspects of corrective physical education, postural defects,

therapeutic exercise, rehabilitation, prevention and treatment of sports injuries, common therapeutic modalities, and various aspects of massage and the description of massage techniques. Written in a simple and easy language, with plenty of illustrations, the book is mainly intended for use as a text book and also as a reference book for the teachers, and undergraduate and postgraduate students of physical education and sports (B.P.Ed. & M.P.Ed.) for most of the Indian Universities. However, the students and professionals of coaching, Fitness management, physiotherapy and other allied health professions having interest and concern with the subject material may also find it useful to them.

The most comprehensive, extensively illustrated book focusing on chiropractic principles, diagnosis, and treatment. A Doody's Core Title for 2019! 5 STAR DOODY'S REVIEW! "This is the third edition of one of the chiropractic profession's most important and influential books. It is a compendium of hard scientific knowledge about all aspects of chiropractic, from the social and historical to the clinical and research oriented. It is a significant expansion from the second edition, which was published in 1992, quite some time ago. It contains five major sections: Introduction to Principles of Chiropractic, Introduction to Chiropractic Theory, Introduction to
