Understanding ship stability is critical for all maritime students or professionals who are studying for a deck or engineering certificate of competency, or seeking promotion to a higher rank within any branch of the merchant marine or Navy. The sixth edition of the now classic 'Ship Stability' provides a comprehensive introduction to all aspects of ship stability and ship strength, squat, interaction and trim, materials stresses and forces. \* The market leading ship stability text, widely used at sea and on shore \* New content includes coverage of now-mandatory double-skin tankers and fast ferries \* Meets STCW (Standards of Training, Certification & Watchkeeping) requirements and includes self-examination material: essential reading for professionals and students alike

A practical and user-friendly guide to the collision regulations, with full interpretations of the rules and clear diagrams. A thorough understanding of the International Regulations for the Prevention of Collisions at Sea (ColRegs) is essential for a wide range of professionals as well as amateur mariners. Written in legal text rather than easy to understand terminology, it is not a surprise that the Colregs are subject to gross misunderstanding and confusion. This makes this a difficult area for the thousands of mariners who need to learn, understand and remember them. This handbook is the answer. Expert marine training director Simon Jinks provides straightforward explanations of the complex situations that the Regulations discuss. He gives simple and comprehensive interpretation of the ColRegs rule by rule, giving students and professionals the clarity they need for exam prep and dealing with real-life situations. Colour illustrations of all lights and shapes, and clear diagrams provide additional support for students. The handbook also includes chapters on bridge watch-keeping, radar plotting and techniques for answering ColRegs questions in MCA exam conditions. It shows you where other maritime regulations work hand-in-hand with ColRegs. Simon Jinks is an experienced teacher of ColRegs to students who are studying for MCA Masters, OOW, Boat master and Chief Mates exams, plus those who are studying for RYA Yachtmasters and IYT Master of Yacht Qualifications and want to have an in-depth knowledge. The book adapts the author's teaching notes, developed over many years, with added extras around the subject to help in greater understanding.

A no-nonsense study guide helping seafarers to pass their MCA or Flag State oral exams for Deck Officer qualifications. This handy revision guide is the one book that Deck Officer Cadets, Master and Deck Officers will want by their side when studying for the much-feared oral exams. Expert marine training director Simon Jinks strips back the masses of information to the core essential points that are easy to absorb and quick to remember when it comes to the oral assessment. The MCA Deck Officer (Officer of the Watch, Chief Mate and Master) syllabi cover a vast amount of information that candidates are

required to understand and use in their oral exam, which for many presents a major stumbling block to qualification. While it inevitably takes a long time for candidates to build up this wealth of knowledge, this study aid is the perfect refresher, listing the key points and including helpful sample questions and worked examples on tidal working, radar plotting and more. Written in simple terms, this trusted crammer covers all the principal areas of the MCA's exam syllabus, including sections on business and law conventions, pollution prevention, responses to emergencies and distress signals. Clearly presented, it is packed with straightforward diagrams and flow charts, making it ideal for revising. This is an invaluable reference for all international STCW Deck Officer candidates, and covers both MCA and Flag State oral exams. It is also suitable for Near Coastal and Boatmaster apprentices, Workboat crew apprentices, Yachtmaster Offshores, Yachtmaster instructors, and fishermen going for their fishing licences on larger vessels, and for shore workers such as vessel superintendents, maritime managers and trainers. There is specific information for all vessels, with sections on smaller, code and domestic vessels.
