Water Drops on a Penny - Science Experiment Materials for Water Drops on a Penny. Instructions. Fill the eyedropper or syringe with water. Rinse a penny and dry it completely. Place the penny on a plate... The Science behind it. Water molecules are attracted to each other, called cohesion. This ...

[Water Drops on a Penny | Science Experiment | My World ...](#)

As drops of water are added onto a penny, the adhesive force between the water and the penny keeps the water from falling off. Cohesive forces are strong, but not unbreakable. As a water drop builds up and out, usually bulging over the sides of the penny, the cohesive forces will eventually be overcome by the force of gravity on the water molecules.
