"The SKS Carbine has a long and varied history of use throughout the world. And it has found a home in North America where it has become one of the best-selling rifles in the United States and Canada. Manufactured in eight countries, SKS Carbines are currently available to the collector from Albania, China, Romania, the Soviet Union (pre-1994), and Yugoslavia. SKS Carbines from East Germany, North Korea and North Vietnam are quite rare and are usually war trophies from the War in Vietnam."--

County California. A newsletter dedicated to sharing the activities, interests, and knowledge of the membership of the club with our community. This is every issue of the "Redwood Stumper" from 2012

The U.S. Army teamed up with cartoonist and graphic artist Will Eisner to produce teaching tools for U.S. soldiers in a medium that they could easily understand. The M16A1 Rifle: Operation and Preventive Maintenance, first printed in 1969, features a female narrator who instructs GIs on the proper care of their AR-15 (military name M16A1) rifles—firearms notorious for jamming and malfunctioning. More than a simple manual and step-by-step guide, this unconventional yet important military document tried to appeal to soldiers with suggestive chapter titles such as “How to Strip Your Baby,” “What to Do in a Jam,” “Sweet 16,” and “All the Way with Négligé.” A copy of the thirty-two-page booklet was issued to nearly every soldier serving in Vietnam.

More than half a million Swedes - one in twenty - is of Finnish descent. This book explores Finnishness, multilingualism and identities of young people with Finnish background in Sweden. What does it mean to grow up in a Finnish family in Sweden? Who are "real Finns" and what does it take to be(come) one? Is a shared minority language essential for the survival of the minority, or can a minority culture stay viable without it? What is Finnishness and who, in the end, can define ethnicity? How to make sense of, and how to present interviews that are rich with imitations of accents, jokes and laughter? Representations of Finnishness in Sweden is an ethnographic interview study in the domain of applied language studies. This book is aimed at readers

interested in sociolinguistics, linguistic ethnography, and the study of identities. Interviewees' voices take a central position in this book and interview excerpts are used not only as illustrations, but also serve as starting points for discussing broader theoretical concepts. The author, Dr. Lotta Weckström, grew up bilingual - Finnish and Swedish - in Finland. She studied linguistics and migration studies in Germany and the Netherlands, and in this longitudinal study encompasses her expertise.

Fry The Brain is a detailed, original study of urban guerrilla sniping and its employment in modern unconventional warfare. Fry The Brain strives to educate the interested reader in all aspects of modern urban guerrilla sniping. As such, Fry The Brain is a unique, relevant work that is a must read for all students of contemporary guerrilla warfare.

The main objective of the book is to allocate the grass roots initiatives of remembering the Holocaust victims in a particular region of Russia which has a very diverse ethnic structure and little presence of Jews at the same time. It aims to find out how such individual initiatives correspond to the official Russian hero-orientated concept of remembering the Second World war with almost no attention to the memory of war victims, including Holocaust victims. North Caucasus became the last address of thousands of Soviet Jews, both evacuees and locals. While there was almost no attention paid to the Holocaust victims in the official Soviet propaganda in the postwar period, local activists and historians together with the members of Jewish communities preserved Holocaust memory by installing small obelisks at the killing sites, writing novels and making documentaries, teaching about the
